- The Firm's remuneration policies and practices are reviewed annually to ensure they are appropriate and proportionate to the nature, scale and complexity of the risks inherent in the business model and the activities of the firm.
- The Governing Body, as the Remuneration Committee, is directly responsible for the overall remuneration policy.

Alphadyne UK's Remuneration Policy sets out the criteria for setting fixed and variable remuneration. All remuneration paid to staff members is clearly categories as either fixed or variable remuneration.

Fixed remuneration is based upon a staff member's professional experience and organisational responsibility. It is permanent, pre-determined, non-discretionary, non-revocable and not dependent on performance.

Variable remuneration is based upon staff members performance or, in exceptional cases, other conditions.

Performance reflects the long-term performance of the staff member as well as performance in excess of the staff member's job description and terms of employment, and

- includes discretionary pension benefits; and
- includes carried interest, as referred to in SYSC 19G.1.27R.

Total remuneration is based on balancing both financial and non-financial indicators together with the performance of the Firm and the staff member's business unit.

The Firm ensures that fixed and variable components of the total remuneration are appropriately balanced; and the fixed component represents a sufficiently high proportion of the total remuneration to enable the operation of a fully flexible policy on variable remuneration.

The Firm monitors fixed to variable compensation to ensure SYSC 19G is adhered to with respect to Total Remuneration.
